Gated Buckle
for child restraints
Model No: CS101

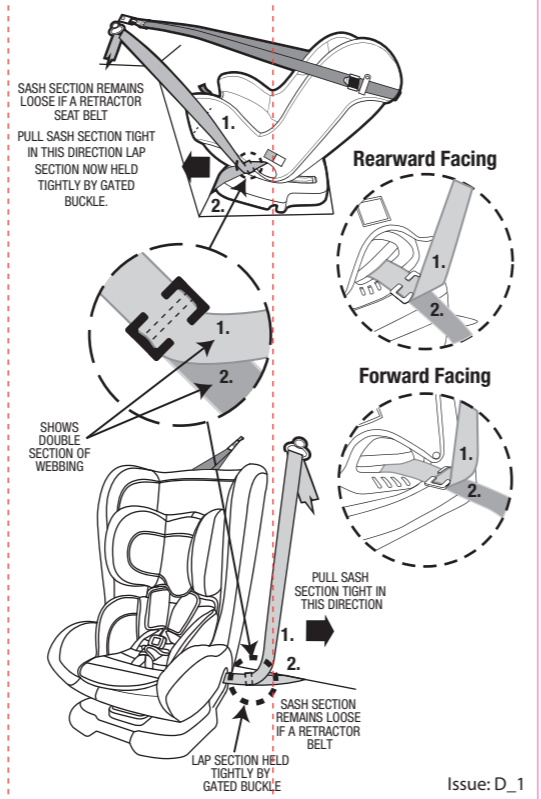

INSTALLATION OF GATED BUCKLE

FOR USE WITH LAP/SASH VEHICLE SEAT BELTS

This applies to the forward, or rearward facing models.

- (1) Install the Child Restraint using the instructions supplied.
- (2) Once installed correctly and tight, hold the sash/lap sections together (where you're going to position the gated buckle).
- (3) Release the seat belt buckle.

- (4) Reduce the adult seat belt length by approximately 20-25mm. (While doing this, it may make it easier to move the car seat to one side).
- (5) Position the Gated Buckle on the double section of the seat belt webbing by feeding edges of the gated buckle (see figures 1 and 2).
- (6) Reconnect the seat belt buckle (it may require a little pressure on the car seat into the vehicle seat when doing up the buckle to ensure it is secured firmly).
- (7) Check the final installation is correct (as per instructions).

Infasecure Warranty Details

Infasecure Pty Ltd warrants this product for twelve months from the date of purchase against failure due to manufacturing faults or faulty materials. Misuse, accidental damages, normal wear and tear are not covered by this warranty. When used for commercial use the period is limited to six months. "Our goods come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure and for compensation for any other reasonably foreseeable loss or damage. You are also

entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure."

Refer to website for details:
www.infasecure.com.au

STORAGE

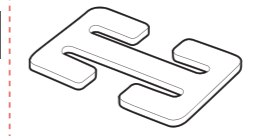

NOTE: IF REMOVED KEEP STORED IN A SAFE PLACE E.G. IN GLOVE BOX OR CONSOLE.

WARNINGS

Be careful to follow all of the installation instructions correctly. If there is any doubt about the method of installation, consult Infasecure Customer Care or an approved fitting station.

Any service queries, please contact details on reverse.

WARNING: ENSURE WEBBING PASSES THROUGH THE GATED BUCKLE WITHOUT TWISTS

WARNING: ENSURE THE GATED BUCKLE IS POSITIONED AS LOW AS POSSIBLE ON THE VEHICLE SEATBELT.
